Results-driven software developer with a strong background in React & .NET Framework and a passion for building innovative web applications. With 2 years of experience in developing and deploying applications used by users across multiple countries, I leverage my expertise in full stack technologies to drive project success. My strong problem-solving, organizational, and analytical skills enable me to deliver high-quality solutions that meet and exceed expectations.

WORK EXPERIENCE

LG Sinarmas Technology Solutions

Software Engineer

June 2025 – Present

- Develop and maintain React-based web applications, collaborating with a 7-member team and conducting code reviews to ensure code quality and best practices.
- Perform daily monitoring of Smart Factory IoT systems, ensuring system reliability and timely detection of anomalies.
- Troubleshoot and conduct manual inspections of production-line issues, working with cross-functional teams to minimize downtime.

Navcore Nextology

Software Developer

January 2025 – May 2025

- Developed and maintained dynamic web and mobile applications using React, TypeScript, Python, and FastAPI, ensuring responsive and user-friendly interfaces.
- Designed and implemented reusable, modular UI components using Material-UI, Konsta UI, and RESTful APIs, ensuring seamless integration and efficient data flow between front-end and back-end systems.
- Built and optimized back-end services using FastAPI to enhance application performance, scalability, and security.

Medco E&P Indonesia

September 2023 – January 2025

.NET Developer

- Design and Development: Develop and maintain web applications and services utilizing ASP.NET, ensuring high-quality and scalable solutions.
- Quality Assurance: Conduct thorough testing and debugging to guarantee the

integrity and reliability of systems or applications, identifying and resolving issues promptly.

- **Collaboration and Communication:** Actively engage with users and business analysts to design and develop applications that meet business requirements, ensuring effective communication and collaboration throughout the development lifecycle.
- **Documentation:** Created comprehensive technical documentation of the application after launch, providing detailed instructions and guidelines for future maintenance, updates, and feature development, ensuring seamless knowledge transfer and facilitating efficient collaboration among developers.

PROJECTS

HR Learning Management System

Technologies used: React, Typescript, Zustand, Radix UI

A platform that is used to track learning progress from Udemy courses, awards points, and displays rankings on a dashboard. Users can follow their learning journeys, receive course recommendations, and redeem points for rewards. Collaborating closely with UI/UX designers, Backend Engineers, and QA.

Tokorumahan

Technologies used: React, Redux, Typescript, FastAPI Postgresql

Developed a mobile-based e-commerce application to support local Indonesian brands, providing a seamless hopping experience with a user-friendly interface. Integrated backend services for real-time product listings, order processing, and user authentication. Optimized performance and state management using Redux to ensure smooth navigation and scalability.

Settlement Request

Technologies used: ASP.NET, C#, Visual Basic, Telerik, jQuery, SQL Server

Developed a digital settlement request application to streamline finance department processes, featuring a centralized platform, automated workflows, and real-time status updates. Collaborated with a 4-member team to deliver the project within 2 months.

EDUCATION

Universitas Pendidikan Indonesia

Bandung, Indonesia

Bachelor of Science – Physics (GPA: 3.52)

Completed a thesis titled "Dimensional Optimization of TiO₂ Nanodisk Photonic Crystals on Lead Iodide (MAPbI₃) Perovskite Solar Cells by Using FDTD Simulations," demonstrating expertise in research and simulation techniques.

Actively participated in a science and research group focused on developing assistive devices and solar cells, fostering collaboration and innovation.

Gained teaching experience as a private tutor in math and physics, instructing students from elementary to college levels.

OTHERS

Skills: English (TOEFL PTESOL Score 520), Analyzing, Fast Learner, Time Management, Video Editing.

Techniques: React, Typescript, HTML, CSS, C#, VB, .NET, FastAPI

Achievements:

- Maintained and developed over 10 applications used by many employees across countries, including Thailand and Oman, within a year.
- Won a Bronze Medal in International Research Competition for Young Scientists (IRCYS) 2020.
- Won a Silver Medal in the Int. Festival of Science and Technology (I-FEST) 2020
- Won 2 Silver Award in International Invention and Innovative Competition (InIIC) Series 2020.
- Received award as “Mahasiswa Bidikmisi Berprestasi” at Silaturahmi Akbar Mahasiswa Bidikmisi dan KIP-K UPI 2020
